- You will meet your companion three times.
- When you meet first, you will learn the basics about the city and find out where important places and authorities are.
- When you meet the second and third time, you can say what you want to know. For example:
 - o How to travel by bus and train? Where do I get tickets?
 - o Shopping: Where do I get cheap food? Halal food? Where can I get cheap/free furniture or clothing?
 - o Sports, culture, free time: Where can I do sport? Where can I borrow books, make music, enjoy art or meet people?
 - o Medical healthcare: Where do I find doctors and pharmacies?
- Please note: Your companion cannot give you legal advice but can help you to find support.
- After your three meetings you decide together with your companion if you want to meet again.
- It is helpful if you speak English or already some German. If not, we try to find a solution.
